Room Name	Patient Bay - Specimen Collection	Room Number PBSC

Revision	4
Issue Date	24.06.2022

BRIEFING

Briefed Area	9.00 m²
Hours of Operation	8am to 6pm, daily
Occupancy	1 patient, 1 staff
Acoustics	
Remarks	
Description / Special Requirements	

A Patient Bay used for the collection of specimens to be transferred to a laboratory for testing.

Additional Considerations:

- Ready access to a handwashing basin is required.
- Ready access may be required to a pneumatic tube bay that is in a staff supervised area.
- Recliner must be able to lay flat to support the patient in the event of an adverse reaction (e.g. fainting).
- A desk may be provided in lieu of Workstation on Wheels depending on operational model.
- An operational model for responding to calls from staff/patients will be needed to support the inclusion of a nurse call system and is to be determined based on service requirements.
- A risk assessment should be undertaken to inform staff safety requirements with adjoining cubicles which may require adjustments to the design and/or operational strategies, such as the use of mobile duress systems.
- Refer to the Pathology HPU for paediatric requirements.

SERVICES

Electrical	BODY PROTECTED	☑	CARDIAC PROTECTED	☐
HVAC	AIRCONDITIONING	☑	AIRCONDITIONING: hepa filtered	☐
	AIRCONDITIONING: positive pressure	☐	AIRCONDITIONING: negative pressure	☐
	EXHAUST: room exhaust	☐	VENTILATION	☐
Lighting	LIGHTING: colour corrected	☑	LIGHTING: dimmable	☐
	LIGHTING: downlights	☐	LIGHTING: downlights, dimmable	☐
	LIGHTING: fluorescent/LED, downlights	☐	LIGHTING: fluorescent/LED, flush with ceiling, tamper proof	☐
	LIGHTING: fluorescent/LED, general	☑	LIGHTING: indirect	☐
Security / Nurse Call	NURSE CALL SYSTEM	☐		

Room Fabrics

AusHFG code	Description	Comment
CLTI-002	CEILING: acoustic, drop-in tiles, 600 x 1200	
CLCN-009	CORNICE: wall trim fixing
